Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Introduction

1. Applicants' amendments and remarks filed on 1/25/2007 have been entered. Claims 1, 6, 9, 12, 14, 17 and 20 have been amended. Claims 1, 3, 4, 6, 8, 9, 11, 12, 14, 16, 17, 19, 20, 22 and 24 are active.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. In view of the amendments, the claim objections in the previous Office action mailed 11/27/2006 are withdrawn. However, after a careful review of claimed limitations, it is further determined that a new matter issue from a previous amendments must be corrected, as set forth below. Finally, the rejection over Weng and Ishiwata references are withdrawn from the present Office action, and to be reinstated, if appropriate, once the new matter issue is resolved, and applicants' arguments directed to Weng and Ishiwata are moot.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1, 3, 4, 6, 8, 9, 11, 12, 14, 16, 17, 19, 20, 22 and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to

Art Unit: 1771

reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In independent claims 1, 9 and 17, lines 3-4 of each claim, the recitation “flexible film material having a coefficient of thermal expansion substantially similar to the semiconductor device” is new matter added in an amendment filed 9/26/2005. More particularly, since the specification merely discloses that “marking tape 1 is formed of a material which has a similar coefficient of thermal expansion to that of the semiconductor die” [Figs. 4-5; paragraphs 0015 and 0047], and clearly distinguishes the flexible film (carrier tape 4) as a separate component disposed over marking tape 1 [paragraphs 0015, 0034, 0041-0043] in a laser-markable structure, and lacks any description regarding the coefficient of thermal expansion of the flexible film (carrier tape), the recited limitation is deemed to be new matter.
